EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

In claim 4: line 3 from the bottom, a comma appears to be left undeleted by Applicant's Amendment dated March 7, 2005. Therefore, this examiner's amendment is intended to remove the comma in question. The fully rewritten text of claim 4, without the deletion mark, is given below.

4. (Currently Amended) The optical filtering system of claim 2 wherein said first separating diffraction grating and second recombining diffraction grating are a same first diffraction grating and said second separating diffraction grating and said first recombining diffraction grating are a same second diffraction grating; and

further comprising a directing/redirecting optical element capable of directing input optical radiation from said at least one input beam/port to said same first diffraction grating, and capable of redirecting output optical radiation from said recombined output channels to at least one output beam/port;

wherein the selectable filtering sub-system comprises a pixellated switchable transmissive element and a mirror.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The 35 U.S.C. 112, second paragraph, situation associated with claims 4 and 20 has been corrected. The independent claim 1 was the only claim that was rejected under anticipation by Glenn. Claim 1 has now been cancelled. Claims 2 and 5, which were objected to in the previous Office action, besides claims 3 and 6, have been rewritten in independent form to incorporate the allowable subject matter of claims 2 and 5, respectively, into that of original claim 1. Vis-à-vis the art of record, claims 7-19 had been indicated allowable, with a reason therefor, in the previous Office action. Therefore, all claims 2-20 are now ready for issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Loha Ben whose telephone number is (571) 272-2323. The examiner can normally be reached on Monday to Saturday, generally between 12:00 noon and 8:00 p.m.
